AGREEMENT

In order to permit each party to obtain information for the analyses detailed in Exhibit A, each party agrees to disclose to the other party confidential information on the following terms and conditions and subject to the following limitations and requirements.

Any information or analysis protected by copyright, trademark, or legal privileges will not lose its confidential legal status by means of this agreement, and the parties agree to take reasonable steps to ensure that such confidentiality is maintained.

1. The term "Confidential Information" shall mean any data file and the contents thereof provided by one party ("Disclosing Party") to the other ("Recipient"), which includes

some or all of the information detailed in Exhibit A. Confidential Information shall not include information independently in Recipient's possession (even if such information is the same as information supplied by Disclosing Party to Recipient).

- (f) protect the Confidential Information using the same standard of care Disclosing Party uses to protect its own confidential and proprietary information, but in any event not less than a reasonable degree of care; and

- (g) immediately notify the Disclosing Party in writing in the event of any unauthorized use or disclosure of the Confidential Information and assist in remedying such unauthorized use or disclosure, as requested by the Disclosing Party (which shall not limit other remedies as provided herein and by applicable law).
 - (h) maintain the data under the conditions set out herein for the duration of the State Supervisory and Evaluative Research Purposes.
5. Some of the data exchanged may constitute "educational records" as such term is defined in the Family Educational Rights and Privacy Act (FERPA 20 U.S.C. 1232g; 34 CFR Part 99). Such records are being disclosed pursuant to 20 U.S.C. § 1232g (b)(1)(F) and (b)(3).

7. Recipient and the Disclosing Party may mutually agree to expand the Business Purpose to add additional research projects. Such agreement shall be in writing signed by both parties, and shall require such documentation as the parties may require from time to time
8. All Confidential Information provided by Disclosing Party, including all permitted copies, shall be deemed and shall remain the property of the Disclosing Party. Recipient will protect the confidentiality of both students and institutions in reports prepared for review by any third party.
9. Recipient agrees that an impending or existing violation of any provision of this Agreement would cause the Disclosing Party irreparable injury for which it would have no adequate remedy at law, and that the Disclosing Party shall be entitled to seek immediate injunctive relief prohibiting such violation, in addition to any other rights and remedies available to it.
10. Recipient will be solely and entirely responsible for its acts and the acts of its employees and representatives during the performance of this Agreement.

11. This Agreement shall be effective as of the date first written above and shall continue until terminated by either party upon thirty (30) days prior written notice. Paragraphs 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 16 of this Agreement shall survive any termination of this Agreement in perpetuity, if so allowed by law.

Any assignment in violation of this Paragraph shall be void. This Agreement shall be binding upon the parties and their respective permitted successors and assigns.
13. If any provision of this Agreement shall be held invalid or unenforceable, such provision shall be deemed deleted from this Agreement and replaced by a valid and enforceable provision which so far as possible achieves the parties' intent in agreeing to the original provision. Statement of Work

A. STATE SUPERVISORY AND EVALUATIVE RESEARCH PURPOSES :

The South Dakota Department of Education and the South Dakota Board of Regents will use the Confidential Information to:

1. Track the college success experience of South Dakota first-time freshmen who enroll in post-secondary institutions operated by SDBOR or regulated by SDDOE.
2. Expand research on the relationships among pre-college factors and college-level factors.
3. Identify those pre-college experiences that have implications for college readiness and eventual success in postsecondary programs.
4. Compare the characteristics of students who persist through the first year across all six South Dakota four-year public institutions.
5. Expand understanding of and identify the types of information that are of value to institutions as they develop strategies and procedures for working with students from a variety of educational and cultural backgrounds.
6. Facilitate institutional ability to develop curriculum and provide academic counseling that would aid students in their progression through postsecondary education.

B. THE DATA FILES

Because data from SDBOR and SDDOE will be combined to form the research file, careful attention will be made to insure the confidentiality of both student and institution records. This section outlines the process to ensure confidentiality.

SDDOE will develop a South Dakota High School graduate file (outlined in Exhibit B) based on student name and date of birth. SDBOR will match these files against student data to retrieve students first year performance and progression into post-secondary education. Matched working data files will be promptly moved to a secure environment and maintained securely by the Recipient in the college outcomes database.

C. FEES

- The exchange of data between SDDOE and SDBOR will be done at no cost.
- Summaries of research will be provided to SDDOE at no cost to SDDOE.
